WIRES, CABLES, ELECTRICAL PVC CONDUIT PIPES & TAPE

Wholesale Price List

w.e.f 15th November 2021

AN ISO 9001:2015 CERTIFIED COMPANY

NIROL

Wires-Switches-Pipes

Wires & Cables Lab

Wires and Cables

- When ever fire breaks out in any building the burning of cable emanates the toxic, black smoke which causes injury and subsequently becomes fatal to the human life. This compelled us to manufacture FRLSH (Flame Retardant Low Smoke and Halogen) Cables. So we use FRLSH Grade PVC Compound, Self Extinguishing, during fire very less toxic fumes are emitted and quite lesser amount of non corrosive of smoke emitted.
- Passed from important test in which the wires immerse in water at 60°C for 24 hours after 24 hours 6000 volts AC current is passed for 5 minutes continuously.
- HR-FR-LSH Insulation. Useful for domestic & industrial purposes.
- Manufactured on extruded imported machinery.
- Copper conductor used, manufactured with electrolytically refined (E.C. GRADE) copper having purity of 99.97%. and the conductor of Alluminium is manufactured from electrolytically refined (E.C. GRADE) aluminium having purity of 99.5%. So, do not get heated on recommended load due to purity of conductors, and for maintaining good quality, copper and aluminium conductors are drawing & annealing in own units and also own manufacturing unit of PVC Compound.
- Aging factor does not hamper the quality of Nirol wires and similarly a climatic condition too does not have any adverse effect on Nirol wires and cables.
- Controlling voltage dropping even at a long distance which ensures long life to electric appliances.
- Tested as per IS:694 Bureau of Indian standards of ISI, and inscribe CM/L No.9700149616 with ISI logo on every coil.
- In case of short circuit/fire, the cable never catches fire.

Conduit Pipes

- It is made of Polyvinylchloride (PVC). The additives used in manufacturing this product having a quality of shock proof. We adopt high quality Imported PVC Resin & imported processing aids with scientific formulas to produce pipes & fittings. NIROL Electrical PVC Conduit pipe conforms to Bureau of Indian Standards, IS:9537 (Part-3) 1983 and inscribe CM/L-9700149321
- Light Weight: NIROL Electrical PVC Conduit pipe is very light weight, high strength, long life span, low cost, lower cost of installation & lower transportation cost.
- Corrosion Proof: Resistance to most chemicals, PVC is not affected by any corrosion, Cement, lime, soils and salts.
- Commercial and Industrial Uses: NIROL Electrical PVC Conduit pipe has proven durable and effective for years of maintenance free performance in under-ground, encased & exposed application.
- Self Extinguishing: PVC Merits make fire resistant qualities.
- Impact Resistant: NIROL Electrical PVC Conduit is tough, durable & has high tensile strength; yet is easy to handle & install right on the job site.

Our Main Motive Is To Make The Quality Better And Better

HR-FR-LSH Multistrand Copper Wire, 1 Core

Cat No.	No.Size of Strand [mm.]	Conductor Area [Sq.mm.]	Rate 90 mtrs.
