AN ISO 9001:2015 CERTIFIED COMPANY

Module / Tiny Series Quality

- Fresh & top quality FR (Flame Retardant) Poly Carbonate (PC) has been used for manufacturing.
- Fabricated through latest automatic injection moulding machines.
- Screws & Terminals have been electroplated by pure silver and tested by GO-NO-GO gauge apparatus.
- Pure Silver has extremely high electrical conductivity, very low contact resistance. Also rules out to the sparking and ensures proper current supply to electrical appliances.
- Manufactured with top quality Phosphorus Bronze (PB) metal.
 - **Connecting Points (Rivets) is filled with pure silver In following ampere switches:-**
 - In 16 Amp. Switch Rivets Pure Silver contacts head diameter is 05mm, the thickness of Pure silver is 0.04 mm.
 - In 10 Amp. Switch Rivets Pure Silver contacts head diameter is 4.5 mm, the thickness of Pure silver is 0.04 mm.
 - In 06 Amp. Switch Rivets Pure Silver contacts head diameter is 04 mm, the thickness of Pure silver is 0.03 mm
 - As per the instructions laid down by the Bureau of Indian Standards the test of 40,000 ON-OFF operations are required by applying load of 6 Amp and 10 Amp for passes of these switches, but we are the **NIROL** Switches undergo 3 times (i.e. 1,20,000 ON-OFF operations) more than the laid down by the rules of the ISI before marketing.
 - **NIROL** switches are duly certified by ISI (Bureau of Indian Standards)

Kit Kat Quality

- Fine quality porcelain (China Clay) is used.
- Zero percent leakage of current during rainy season.
- Current carrying parts made with super quality Phosphorous Bronze and Electronic Tough Pitch (ETP) duly silver coated which assures continuous current supply and avoid any voltage dropping, fluctuation and sparking at the time of over heated/over load.
- Never loose during screwing of wire.
- Available in wide range starting from 16 Ampere 240 Volts AC to 500 Ampere 415 Volts AC.

Main Switch Gear & Changeover Switch Gear

- Current carrying parts made with super quality Phosphorous Bronze and Electronic Tough Pitch (filled) duly silver coated which assures continuous current supply and avoid any voltage dropping, fluctuation and sparking.
- Prepared by using the MS Sheet, passes through Eleven chemical processes, powder coating paint to avoid rust & leakage of current at any level.

Heating Element

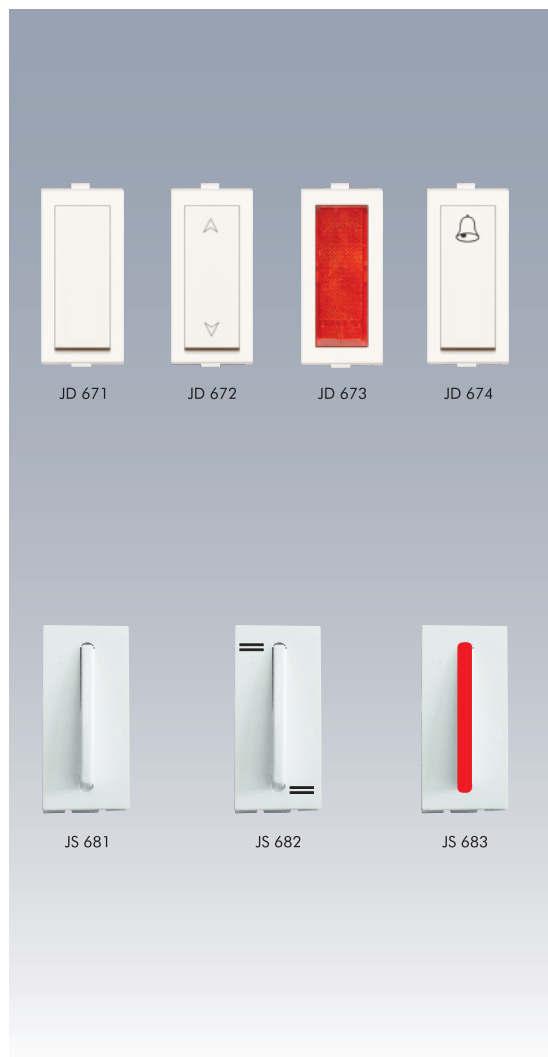

- Made with 21% Chromium, 4% aluminium and other ferrous material.
- Generate, heat energy as per watt age of element.
- Durable, long life and consume low electricity.

Joy Deluxe Series
